TECHNOLOGICAL LINES & EQUIPMENT MANUFACTURER

DESIGN - IMPLEMENTATION- DELIVERY- ASSEMBLY- COMMISSIONING

WE DEAL WITH

- ✓ Designing and construction of technological lines for the food and chemical industries
- ✓ Production of installations and technological stations
- ✓ Preparation of technological and multi-branch projects
- ✓ Modernization and adaptation of existing lines and devices
- ✓ Designing technological devices and machines
- ✓ Designing non-standard and innovative devices – prototypes
- ✓ Development of ATEX explosion risk analysis
- ✓ Warranty and post-warranty service

Design

&
delivery

Assembly
&
commissioning

TRANSPORT

Mechanical transport

Screw conveyors
Belt conveyors
Vibrating conveyors
Roller conveyors
Bucket conveyors
Rotary valves

Pneumatic transport

High pressure
Vacuum
Over pressure

Fluid transportation

Pumps
Pipelines

MIXING

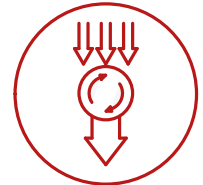

Powder mixing

Mixers
Coating drums

Mixing fluids

Liquid mixing tanks
Reactors

DOSING

Weighing systems for tanks and silos

Loading stations

Big Bag filling stations
Automatic filling stations
bags up to 25 kg

Pumps

Feeders

Screw feeders
Belt feeders
Vibrating feeders
Bucket feeders
Rotary valves feeders

UNLOADING

Unloading stations

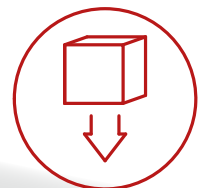

Big Bag unloading stations
Bag unloading stations up to 25 kg
Tanker unloading stations

Tipplers

Car tipplers
Container tipplers

Receiving station

Barrel reception stations
Pallet container reception stations

DRYING & COOLING

Drying

Belt dryers
Spray dryers
Pneumatic dryers
Fluid bed dryers
Pulse fluid dryers
Drum dryers
Chamber dryers

Cooling

Coolers
Cooling transport

Blanched

Tubular blanchers
Belt blanchers

STORAGE

Stainless steel silos

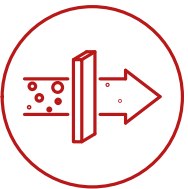

Process containers

Tanks

Buffer tanks
Mixing tanks

DEDUSTING & FILTRATION

Dust extraction systems

Dust extraction
Fume extraction

Dust extraction & filtration system elements

Filters
Dust collectors
Cyclones
Cyclone filters
Scrubbers
Hydrocyclones

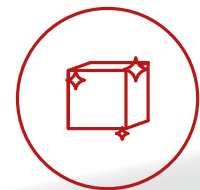

WASHING & CLEANING

Box washers

CIP systems

Washers

SHREEDING & SIFTING

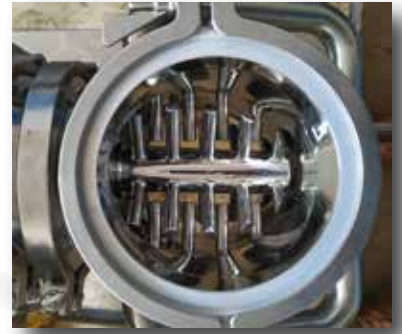

Shredders

High-speed shredders
Hygienic shredders

Sifting and separation

Cylindrical-rotary screen
Vibration sifters
Magnetic separators

PACKING

Big Bag filling stations

Packaging filling stations
Semi-automatic filling stations
bags up to 25 kg

Automatic filling stations

ATEX

Installation safety

Customizing existing
installations for safe
operation

INNOVATIONS

Experimental installations

Special solutions

Unusual and innovative devices
– prototypes
